

1981 Chevrolet Computer Command Control

The 1981 Chevrolet Camaro was in its final season with this body style, and it once again looked nearly identical to previous editions. Dropped from the lineup was the slowest-selling model, the RS, but base, Berlinetta, and Z28 made the cut. Sales trailed off somewhat, but everyone knew a new design was coming for '82.

1981 Chevrolet Camaro | HowStuffWorks

GM's Computer Command Control (CCC) emission system improved driveability somewhat while lending a hand in meeting 1981's stricter emissions regulations, but bigger news came in the form of a new four-speed automatic transmission with long-legged 0.67:1 overdrive fourth gear.

1981 Chevrolet Impala and Caprice Classic | HowStuffWorks

The Z28 continued to feature the functional rear-facing hood scoop introduced the previous year, and the functional side fender ports for exhaust of engine compartment. All 1981 Camaros were equipped with Chevrolet's "advanced computer command control" engine management system. Power brakes and space saver spare tires became standard in 1981.
