Installation Instructions; Note. It is possible to overload your motorcycle's charging system by adding too many electrical accessories. If your combined electrical accessories operating at any one time consume more electrical current than your vehicle's charging system can produce, the electrical consumption can discharge the battery and cause vehicle electrical system damage.

I'm going to put an S and S Super B on my 51, and this particular B is a later model with the Push/pull setup for two cables. If you have one of these, you should be able to merely attach the cable to the left side of the motorcycle under the tank and run it between the cylinders to either the top or bottom, depending on whether you want a push or pull.
