Most BMWs have the fuse box located in the glove box compartment. Older BMWs have it in the trunk near the battery, so check both these locations. Check for bad fuses by taking them out one by one. A bad fuse is the most likely cause of electrical problems, so start with this step before taking your ...

How to Solve BMW Electrical Problems Easily | AxleAddict

Sean: Comments: I have 94 bmw 325 and two years ago I didn't pass smog because of high HC so I replaced the O2 sensor and it passed.Two years later I am having the same problem. A couple of weeks ago the code 1222 was logged indicating a lean/rich problem. I cleared the code and it has not logged since.
