Overview. This model is the most efficient air conditioner we make for starters. Add to that the fact that its two-stage compressor can make a real comfort difference when it comes to managing indoor humidity.. Two-stage compression lets the system bring the cool when it's needed but allows it to function mostly in low-stage, where you get the highest efficiency and the best dehumidification ...

Of the above three, QUESTION 1. is the most important. For example: Usually we have seen people who have a 400 sq. ft. room rush to a decision and buy a 9000 BTU portable air conditioner which is good for only 300 sq. ft. Doing this is ok, if you have a small budget and you cannot afford a bigger BTU unit and if you are just buying it for little cooling or trying to bring the tempearture down ...
