

Cbr600rr Turn Signal Wiring Diagram

So, Green is Ground and is connected to the Black Wire on the aftermarket LED turn signal. Solid Wire is connected to the Red Wire on the aftermarket LED turn signal. If I try connecting the Solid Wire with Strip the Front is always on and the blinkers don't work. If I put the Honda signal back on, it all works fine. Any help... I'm in wiring ...

front turn signals - CBR600RR

(Since they're 3-pin connectors, I assume that I've got three wires going to each turn signal and the tail light.) I do have a multimeter, but I don't quite understand how to read wiring diagrams. I don't want to replace the entire wiring loom if I don't have to.

Re-wiring '12 CBR600RR tail light and rear-turn signals ...

Variety of universal turn signal wiring diagram. A wiring diagram is a streamlined standard pictorial depiction of an electric circuit. It shows the parts of the circuit as simplified forms, and also the power and also signal links in between the devices.
