Dell Festive Offer

Overview and product type. The Dell Latitude is a laptop family from Dell Computers, intended for business use. By contrast, the Dell Inspiron is aimed at the consumer market and its specifications change regularly. Whereas Inspiron may change vendors or components several times over the course of a single model, the Latitude line generally retains identical components throughout its production.

Dec 16, 2010: Yesterday we published a story revealing not-yet officially released Phenom II Triple-Core N870 microprocessor in Dell Inspiron M501R notebook. We suspected that that processor would be a part of future refresh of AMD mainstream "Danube" platform. Today we found more mobile processors from the upcoming refresh.
