

Radiology For The Dental Professional

Radiology is the medical specialty that uses medical imaging to diagnose and treat diseases within the human body.. A variety of imaging techniques such as X-ray radiography, ultrasound, computed tomography (CT), nuclear medicine including positron emission tomography (PET), and magnetic resonance imaging (MRI) are used to diagnose or treat diseases. ...

Radiology. Exact Radiology Clinics is an independently owned and operated Australian radiology practice, established in 2008. We now have nine clinics servicing Queensland's western and southern corridor, with comprehensive sites at all locations including North Ipswich, Ipswich, Rochedale South, Sunnybank, Springfield Lakes, Oxley, Chapel Hill, Inala and Gatton.

Exact Radiology

More frequent than usual cleaning and examination may be necessary during the treatment of many different dental/oral disorders or due to recent surgical procedures such as dental implants. The American Dental Association (ADA) stresses that the frequency of dental visits necessary is dependent upon the needs of each individual with some able to go once or twice a year and others needing to go ...
