

### **Wiring Diagram Of Building**

A wiring diagram is a simplified conventional pictorial representation of an electrical circuit. It shows the components of the circuit as simplified shapes, and the power and signal connections between the devices. A wiring diagram usually gives information about the relative position and arrangement of devices and terminals on the devices, to help in building or servicing the device.

The battery should be a combo starting/deep cycle battery, usually sold as a "marine battery". An ordinary auto battery would do for starting and lights, but for running a radio and other electronics

something with a little more of a deep cycle capacity will be needed so the battery doesn't go flat while you're fishing and listening to the radio, and leave you stranded when you try to ...
